A Higher Standard.

MAKE A STATEMENT WITHOUT SAYING A WORD.

Actions speak louder than words, and investing in the Premier™ Series merchandisers from API speaks volumes. It says you recognize the value of performance, reliability and innovation – the hallmarks of Automatic Products for over fifty years. It also says you're one smart operator.

Whether you require a full line of merchandisers, or one specific model to vend snacks, beverages, or foods, the Premier Series offers the industry's most complete line of best-in-class merchandisers. We continually listen, research and innovate to bring you smarter, more efficient vending technology. Our advanced electronics offer increased business accountability. Our rigorous manufacturing standards and knowledgeable after-sales support keep you up and running. And our high standards of quality virtually guarantee your API merchandisers will command the highest resale values in the industry.

It's true. Investing in the Premier Series merchandisers says you're committed to growing your business and serving your customers for years to come. It says you've arrived — and have no intention of leaving.

PREMIER™
SERIES

The Premier Series merchandisers are available in popular styling options including Odyssey® styling (shown above).

The high standards of quality built into each Premier Series merchandiser reflect a heritage of superior craftsmanship dating back to 1949.

PREMIER™ SERIES INTRODUCTION

The Premier Series offers a full line of merchandisers to meet location requirements for snacks, food, and hot and cold beverages.

Operate multiple merchandisers through a single control panel for greater flexibility and profitability.

LEADERSHIP SPEAKS FOR ITSELF.

Our Snackshops® have achieved unquestioned market leadership among glassfront merchandisers. For over twenty-five years, the Snackshop merchandisers have upheld the highest design and manufacturing standards in the industry. That's why operators agree that our Snackshops are the best-built, most reliable merchandisers in the world.

- Superior robust design for years of reliability and consistent performance.
- Stiff and sturdy cabinets that retain squareness without racking for the lifetime of the merchandiser.
- Durable metal (not plastic) shelves.
- Consumer-friendly delivery bin also provides unsurpassed security.
- Full view of products for greater merchandising appeal.
- The industry's best gum and mint dispenser.
- Master Menu® On-Line compatible.
- Unparalleled resale value when you're ready to sell.

These Snackshops also feature customizable electronics, advanced accountability, DEX, Modularity, a Universal Logic Control Board, and eight-point "star drive" spiral motors.

SNACKSHOP®

◀ 123

Our flagship merchandiser is the Model 123, commanding the biggest space (and the most profits).

All of the 120 Series Snackshops offer:

- A selection system based on the consumer-accepted telephone keypad design
- Convertible shelving configurations for added flexibility
- A swing-out panel which keeps critical peripherals in a concentrated area

PREMIER™ SERIES SNACKSHOP®

◀ 121

Fit into those smaller spaces with our compact Model 121.

▲ 122

Our mid-sized Model 122 strikes a balance between fitting in and standing out.

CAFÉ DIEM®

THE LAST WORD IN TASTE.

From the moment of its introduction, the Café Diem® has elevated consumers' perception of hot beverage merchandising. The expanded menu offers premium upscale beverages which satisfy the most discerning coffee connoisseur while generating increased profits.

- Up to 15 hot beverage choices for selectivity that rivals a coffeehouse.
- Blended beverages increase offerings while maintaining a manageable product inventory.
- QuickSelect memory lets consumers enter a code for repeat purchase of their favorite hot beverage.
- Optional back lit graphics for enhanced merchandising appeal.
- Motorized dispensing spout ensures precise fill levels with minimal spills and drips.
- Master Menu® On-Line compatible.
- Dual cup capability.

CaféDiem®
Live for the coffee.®

◀ Café Diem offers a true "coffeehouse" experience.

▶ Cup Gallery artwork option*

▶ Corner Café artwork option*

* Available as back lit or decal.

◀ Unique swing-out system holds up to three fresh-brewed coffees – an industry first.

▶ Illuminated cup well for enhanced product presentation.

◀ Up to 15 different hot beverage selections for that true coffeehouse feeling.

▶ Unique beverage layering technique allows for authentic presentation and flavor.

À LA CARTE® / SHOWCASE®

FOOD MERCHANDISING APPEAL THAT SPEAKS VOLUMES.

With the power of glassfront merchandising appeal, the À LA CARTE® merchandiser leads the way in frozen and refrigerated product sales. The “first in, first out” selectivity ensures correct product rotation and minimizes waste. Its spiral dispensing and eight-point “star drive” motors allow positive delivery of hard-to-vend items. Operate it via the 120 Series Snackshop® for substantial cost reduction in frozen and refrigerated sales.

The Showcase® 748 fresh food merchandiser offers the capacity and selectivity needed to meet today’s demanding location requirements. Its carousel design merchandises pre-packaged refrigerated foods and commissary cuisine with ease, including platters up to nine inches in diameter. Each of the eleven trays can be individually programmed to the selling method that’s best for your operation — FIFO or Shopping. Count on the Showcase’s performance and reliability to profitably build your fresh food business.

Showcase (near right) and À LA CARTE (far right) offer the choice of carousel or glassfront food merchandising.

◀ The À LA CARTE and Showcase merchandise a wide range of food products to meet today’s location requirements.

▶ The Showcase’s convenient storage area holds extra inventory.

◀ The Showcase accommodates platters up to nine inches in diameter – perfect for commissary items and combo meals.

▶ Products stay highly visible in the Showcase, thanks to anti-fogging, dual-pane Lexan® delivery doors.

ROBO QUENCHER®

GIVE THEM SOMETHING TO TALK ABOUT.

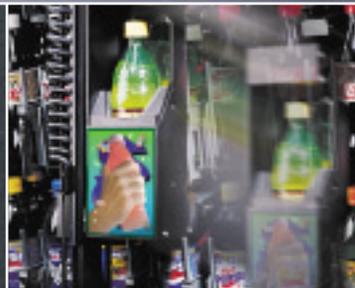

Robo Quencher® delivers bottled products without explosive openings. Our patented Auto Glide™ delivery system features unique robotics that gently deliver the consumer's selection without shaking the product. It also increases consumer interest and drives impulse sales.

- Unique quad-gate shelf design eliminates need for shims and spacers. It's the route person's "best friend."
- "First in, first out" loading system ensures proper product rotation.
- Large glassfront viewing area for unsurpassed product merchandising.
- Five vertically aligned, fixed shelves disperse weight evenly with eight columns per shelf.
- 40 selections (320 items) to satisfy diverse consumer requirements.
- Planogram your best-selling products right at eye level, without worrying about dropping carbonated or glass bottles from the top shelves.
- Quick temperature pull-down with a 1/2 HP compressor.
- Automatic delivery door offers convenient product retrieval at a consumer-friendly height.

ROBO
Quencher™ 
Quench Your Thirst Without The Burst.™

▶
The unique Auto Glide™ robotic delivery system creates customer interest, promising incremental profits for the operator.

▶
Vertically aligned metal shelves provide superior support and prevent sagging.

▶
Accommodates a wide variety of packaging without the need for shims or spacers.

MASTER MENU®

A QUICK WORD ABOUT SAVINGS.

Lower your route operation costs with our exclusive Master Menu® On-Line software. This advanced productivity tool enables you to completely set up any 20 Series configuration on your personal computer, then download that information — quickly and accurately — to merchandisers in the field. It transfers data in seconds and saves time for your route operators, which gives you a competitive edge in productivity.

Multiple merchandiser configuration is easy and convenient with MMOL. About the size of a nickel, CHIP has its own holder to attach to your keychain.

CHIP can transfer custom configurations including pricing, scrolling messages, product codes and recipes to all APi 20 Series merchandisers.

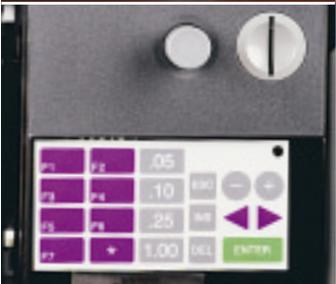

MMOL is a user-friendly Windows®-based software package.

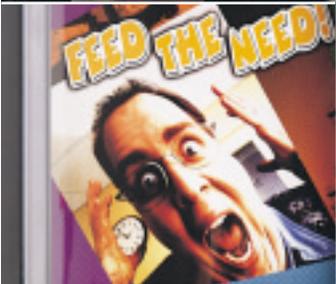

DETAILS

◀ Successful vends are automatic with the Golden Eye® guaranteed delivery system. An option on the Snackshops® and À LA CARTE®.

◀ Our Master Menu® keypad makes it easy to set each merchandiser to your specifications.

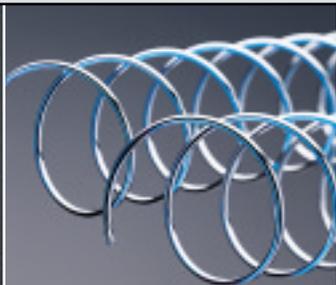

◀ Spread the word. The Point-of-Sale window provides you with your own mini-billboard to promote products. This is a Premier Series exclusive on the Snackshops, Café Diem® and 310 Control Module.

◀ Our industry-leading gum & mint tray allows for convenient and time-saving stocking of product.

◀ All Premier Series glass-front merchandisers are DEX capable, so when you are ready to make the communications move, Premier is also ready.

◀ Our nickel chrome-plated spirals are built to last.

◀ Ensure positive vends of large snack products with our optional Large Size Snack shelf dividers.

◀ Our convertible shelving enables you to choose the most advantageous combination of snacks and candies.

◀ The ECHO Voice Package makes set-up procedures easier for visually impaired operators. An option on the Snackshops and À LA CARTE.

◀ Our durable metal (not plastic) shelves reduce down time and maintenance.
