

FROZEN AND REFRIGERATED FOOD MERCHANDISING WITH MAXIMUM VISIBILITY.

▶ THE FLEXIBILITY OF OUR À LA CARTE® FOOD SYSTEM HELPS YOU MAXIMIZE PROFITS.

Our new À LA CARTE® food system brings the power of the glassfront to your food vending business, backed by the flexibility that will help you maximize profits. Increased product visibility gives your frozen and refrigerated brands the appeal that attracts customers on sight. And the variable temperature setting of À LA CARTE® lets you sell everything from ice cream novelties and frozen food to refrigerated food.

Best of all, we've designed the À LA CARTE® with features and options that create a new standard in merchandising, so you can truly customize your food vending business.

À LA CARTE® FEATURES AND BENEFITS

GLASSFRONT DESIGN

- Most attractive method of merchandising food items.
- Provides a wide variety of product offerings.
- Minimizes costly "shopping" time.
- Items are always in front, so À LA CARTE® appears full even when partially stocked.

FIRST IN, FIRST OUT SELECTIVITY

- Ensures correct product rotation.
- Minimizes waste factor in refrigerated vending.

VARIABLE TEMPERATURE CONTROL

- Frozen or refrigerated vending available; unit can be set at (-15°F) to (+36°F) quickly and easily.
- 3/4 HP refrigeration system can be serviced from the front of the machine.

MODULAR DESIGN

- Cost-saving feature allows you to operate À LA CARTE® via new generation 120 Series snack or 310 control module.

SMALL TO LARGE LOCATION FIT

- Capacities range from 130 (refrigerated) to 368 (frozen novelties) based on your shelving configuration.

FLEXIBLE VEND MECHANISM

- Single or dual spiral dispensing ensures positive delivery.
- Optional conveyor shelf available for difficult-to-vend items.
- Food dispensed at the same, easily-accessible level in compliance with ADA requirements.

VERSATILE SHELF DESIGN

- Allows for vending up to eight different selections per shelf.
- Up to 16 motor positions per shelf ensures precise product width per selection while maximizing shelf capacity.

SIMPLICITY OF DESIGN

- Easy to set up and easy to operate; APi has taken glassfront vending to the next level to maximize food vending profitability.

STANDARD FEATURES

The À LA CARTE® has the standard features you want, built with the reliability you expect from APi. Standard features include:

- A Master Menu® keypad for ease of programming.
- Up to 40 selections per À LA CARTE® module.
- Multi drop buss capabilities.
- Extensive diagnostics capabilities.
- Friendly text based interface.
- Configuration upload and download capabilities.
- User programmable function keys.
- Flexible spiral spacing for large products.
- Eight point star drive motor.
- Four security levels.
- Six languages.
- Real time clock.
- Personal computer interface.
- Printer interface.
- Chime.
- Triple pane heated casement window.
- Temperature scale can be set to °F or °C.
- External temperature readout.

OPTIONS

Our options give you the power of maximum merchandising:

- Our **Golden Eye®** guaranteed delivery system keeps customers satisfied.
- The patented design of our **Point-of-Sale window** gives you a secure and attractive display for promotional and merchandising materials.
- The **storage tray** feature creates extra capacity for product inventory.
- **Braille selection systems** meet the requirements of visually-impaired operators and end-users.
- **Spiral kit** to further enhance merchandising flexibility.
