# GCF-2/GSC-8 Operation and Service Manual

This machine has been engineered to our own rigid safety and performance standards. It has earned a "Letter of Compliance" from NAMA indicating that it complies with sanitation and health guidelines recommended by the Automatic Merchandising Health-Industry Council (AMHIC) and it conforms with all other NAMA safety recommendations. This machine has been FCC verified.

This machine has been manufactured in accordance with the safety standards of both Underwriter's Laboratories and the Canadian Standards Association. To maintain this degree of safety and to continue to achieve the level of performance built into this machine, it is important that installation and maintenance be performed so as to not alter the original construction or wiring and that replacement parts are as specified in the parts section of your *Service Manual*. Your investment in this equipment will be protected by using this *Service Manual* in your operation, service, and maintenance work. By following prescribed procedures, machine performance and safety will be preserved.

These merchandisers are warranted for one (1) year against defective parts and workmanship. Any part or parts which are proven to be defective within one (1) year of the date of shipment will be repaired or replaced free of charge when the defective part is returned, with transportation charges prepaid, to the destination designated by the Glasco Warranty Department.

This warranty applies only to the original purchaser of the merchandiser and is null and void if the merchandiser is sold during the period of warranty.

This warranty is also null and void for all electrical components, wiring, or circuits and/or for all mechanical parts or assemblies damaged as a result of operating the merchandiser at other than 110-120 volts, 60 Hertz current. This warranty is null and void in the event of vandalism, fire, or negligence on the part of the operator.

No warranty is given or implied on incandescent lamps, neon lamps, fluorescent lamps, ballasts, starters, or other expendable items. No warranty will be given when other manufactured components are installed in Glasco merchandisers.

Further, Glasco is not responsible for any cost of service rendered or repairs made on merchandisers or parts by anyone other than an authorized Glasco distributor, unless authorization to incur such expense has been given in writing by Glasco prior to incurring such expense.

This warranty is in lieu of all warranties expressed or implied, including, without limitation, warranties of merchantability and all other obligations or liabilities on the part of Glasco. Furthermore, Glasco neither assumes nor authorizes any person to assume for it any other obligation or liability in connection with the sale of said equipment or any part thereof.

## How To Use The Parts List

This manual contains a parts list for each repairable assembly in the merchandiser. Each parts list contains information you will need when you want to order parts. Column one is labeled "FIGURE INDEX NUMBER". The number to the left of the dash is the figure number and the number to the right of the dash is the index number of the part. To avoid confusion it is important to remember that all assemblies DO NOT have corresponding illustrations. Column two is labeled "DESCRIPTION". The name of the part and a brief description are included in this column. There can be one, two, or three columns labeled "PART NO." and "QTY". Each set is labeled with the appropriate model number(s).

### NOTE

If a part or an assembly is used in each of the models listed in a given table, it is only listed under the first set of columns. See Index 1 in the sample.

If the same part is used in each of the models listed in the table, but the quantities are different, different numbers will be listed in each of the QTY columns. See Index 2 in the sample.

When N/A appears in the PART NO. column, the part is not used in the corresponding model. See Index 3 and Index 4 in the sample.

For attaching parts (i.e. - nuts, screws, washers, etc.) the QTY column lists only the quantity necessary to attach one part or assembly. See Index 5 in the sample.

If an assembly does not have a part number, a dashed line appears in the "PART NO." column.

### ABBREVIATIONS USED IN THE PARTS LIST

CT	Count	RHS	Round head screw
HD	Head	S/T	Self-tapping
LGM	Light gauge metal	T/C	Thread cutting
LH	Left-hand	T/F	Thread forming
N/A	Not applicable	THS	Truss head slotted
PCB	Printed circuit board	W/Hd	Washer head
PHS	Pan head slotted	W/LW	With lock washer
RH	Right hand		

# GCF-2/GSC-8 Operation and Service Manual

## HOW TO ORDER PARTS

The members of the parts department at your Glasco distributor are ready to serve you. Please have the following information ready when you call in your parts order:

Your account number

Name and model number of the merchandiser

Serial number of the merchandiser

Part number, complete description and quantity required for each part you wish to order.

# GCF-2/GSC-8 Operation and Service Manual

## MACHINE REQUIREMENTS AND CHARACTERISTICS

### POWER REQUIREMENTS

Volts AC	115
Amps	15
Hz	60
Phase	Single
Outlet	3-pin
Type	Grounded

### CHECKING THE POWER OUTLET

#### *Voltage Check*

When placed across the HOT and NEUTRAL terminals, a volt-ohmmeter should indicate 110 - 130 volts AC.

#### *Polarity Check*

When placed across the HOT and GROUND terminals, a volt-ohmmeter should indicate 110 - 130 volts AC.

#### *Noise Potential Check*

When placed across the NEUTRAL and GROUND terminals, a volt-ohmmeter should indicate 0 volts AC. A reading of greater than 1.5 to 2.0 volts AC could result in noise problems for the electronic circuitry.

# GCF-2/GSC-8 Operation and Service Manual

**MAIN CONTROLLER PCB DISPLAY.** This display consists of two light emitting diodes (LED) mounted on the controller PCB.

**POWER ON  
(L.E.D. 1)**

When lit, this green LED indicates electrical power is applied to the controller PCB.

**HEARTBEAT  
(L.E.D. 2)**

When flashing, this red LED indicates that the controller PCB is active, and the software is operating.

**NORMAL CONDITIONS:**

When the merchandiser is operating normally, you should see a steady green **POWER ON** indicator and a flashing red **HEARTBEAT** indicator. Contact a service representative if any other condition exists.

# GCF-2/GSC-8 Operation and Service Manual

## MACHINE SET-UP

1. Power to the merchandiser is controlled by the main power switch. It is located on the power panel. The power panel is on the right side of the merchandiser, behind the monetary door. Make sure the power is turned off before proceeding with set-up.

### **Warning**

You should unplug the merchandiser whenever you do one of the following:

- ✓ Change a fuse
- ✓ Change the fluorescent lamp
- ✓ Change the lamp starter
- ✓ Connect or disconnect a harness  
(Except a motor harness when the tray has been removed)

2. Read the following if you need to move the merchandiser through a narrow doorway. This merchandiser has the capability of passing through an opening as narrow as 30 inches by removing the cabinet extensions.

### **REMOVING THE TOP EXTENSION**

Remove the two screws that secure each end of the extension to the sides of the cabinet. Remove the other four screws that secure the extension to the cabinet. Pull the extension forward to remove it from the merchandiser.

### **REMOVING THE BOTTOM EXTENSION**

Remove the two screws that secure each end of the extension to the sides of the cabinet. Remove the other four screws that secure the extension to the bottom of the cabinet. Pull the extension forward and remove it from the cabinet.

### **TAKING THE MERCHANDISER THROUGH THE OPENING**

- Open the cabinet door and place it square with the left side of the cabinet
- Carefully walk the merchandiser through the opening

# GCF-2/GSC-8 Operation and Service Manual

### 3. POSITIONING THE MERCHANDISER

The GCF-2 or GSC-8 can be positioned anywhere in a bank of machines. They can even be placed on an end flush against a side wall. However, there should be at least 4-6 inches of clearance between the merchandiser and the back wall. Finally, there should be enough room in front of the merchandiser for the door to open freely.

#### **Warning**

These machines are only rated for installation in an indoor location.

### 4. LEVELING THE MERCHANDISER

From a safety standpoint, it is very important that the merchandiser be level. A level merchandiser is less likely to tip over and cause personal injury. Level the merchandiser by moving the leg levelers in or out for proper adjustment. Pliers or channel locks may be required to loosen the leg levelers. Level the merchandiser from the right to left and from front to back using a spirit level. When the merchandiser is part of a bank of machines, it should be leveled in reference to the other machines.

#### **Caution**

Have an assistant hold the merchandiser while you adjust the leg levelers.

# GCF-2/GSC-8 Operation and Service Manual

## 5.

### COIN MECHANISM

#### Setting the Quarter Switch

If your coin mechanism is not a MARS TRC 6000, skip this procedure and begin loading the coin mechanism.

If your coin mechanism is a MARS TRC 6000, flip down the top front of the mechanism and set the quarter switch as shown on the drawing to the right. Make sure switch #2 is in the down or "off" position.

#### SETTING THE QUARTER SWITCH

#### Loading the Coin Mechanism

1. Open the cabinet door and the monetary cabinet
2. Insert coins into their respective tubes. Make sure each tube is full.
3. Inspect the tubes for shingled coins and correct if necessary.

### BILL VALIDATOR

#### Emptying the Stacker

1. Push up on the magazine latch to release the housing.
2. Open the magazine by pulling it down.
3. Remove the bills and close the magazine. Make sure it is secure.

# GCF-2/GSC-8 Operation and Service Manual

## TRAY SET-UP

### *Putting The Tray In A Loading Position*

Place both hands on the tray as shown in the figure below. Lightly push back on the tray with your palms.

This will release the tray catches on the sides of the tray. Push down on the tray catches with your thumbs. Pull the tray forward until you hear and feel the rear rollers of the tray drop into a cut-out in the top of the guide rail. Continue pulling the tray forward into the loading position as shown in the figure below.

# GCF-2/GSC-8 Operation and Service Manual

## *Removing A Tray*

Push back on the tray slightly with your palms. This releases the tray catches. Push down on the tray catches with your thumbs. Pull the tray forward until you hear and feel the back rollers of the tray drop into the cut-out in the top of the guide rail.

Lift up on the tray and slide it towards the back. No more than one inch should be required. The tab near the back of the tray should align with the cut-out in the top of the guide rail. Lift the tray clear of the guide rail and out of the merchandiser.

## *Removing Column Dividers*

Push the column divider toward the back of the tray. Lift the column divider clear of the tray. Please refer to the figure below.

## *Removing And Installing Spirals*

There are two important things you should remember about spirals:

- All spirals have the same diameter.
- There is a clockwise and a counter-clockwise spiral.

Spirals are available in six different capacities: 9, 11, 13, 15, 17, and 20. To remove a spiral, pull forward on the retaining clip and remove the end of the spiral from the spiral coupler. Remove the spiral from the tray.

To install a spiral, pull the bottom of the retaining clip towards the spiral. Lower the spiral into the tray column and insert the end of the spiral into the spiral coupler. Release the retaining clip.

# GCF-2/GSC-8 Operation and Service Manual

## *Removing A Spiral Coupler*

Pinch together the prongs on the end of the spiral coupler. Pull the coupler forward to remove.

## *Installing A Spiral Coupler*

Place gear in position if one is required for this set-up. Hold motor in place and push spiral coupler through the motor gear box until it clicks into place. When using a coupler bearing, hold the bearing in place and push the spiral coupler through the bearing until the coupler locks into position.

## *Installing A Gear*

Gears are used to mechanically couple spirals together. This is required when you have two spirals and only one motor for vending a selection. The gear is placed between the back of the tray and the spiral coupler. There are two possible orientations for a gear.

**ORIENTATION 1**

**ORIENTATION 2**

There are two rules to follow when orienting gears:

- |                |   |
|----------------|---|
| <b>RULE #1</b> | The gears for selections next to each other can not use the same orientation. |
| <b>RULE #2</b> | All gears for a single selection must use the same orientation.               |

# GCF-2/GSC-8 Operation and Service Manual

## *Disconnecting A Motor Harness*

First, grasp the header on the motor circuit board. This will help prevent breakage of the circuit board. Next, pull the harness connector away from the circuit board. Finally, tuck the unused part of the harness out of the way in the trough at the back of the tray.

## *Connecting A Motor Harness*

First, grasp the header on the motor circuit board. This will help prevent breakage of the circuit board. Next, locate the harness connector for the tray position of interest. Finally, push the harness connector over the header pins on the motor circuit board.

## *Removing A Spiral Motor (\* = This procedure has been previously discussed)*

First, place the tray in the loading position\*. Then, disconnect the motor harness\*. Next, Remove the spiral and the spiral coupler\*. Finally, lift the motor clear of the tray.

## *Installing A Spiral Motor (\* = This procedure has been previously discussed)*

First, place the tray in the loading position\*. Then, place the motor in the correct position at the rear of the tray. Place a gear in position if required\*. Next, install a spiral coupler. Finally, connect the motor harness.

# GCF-2/GSC-8 Operation and Service Manual

## *Installing A Tray In The Merchandiser*

Insert the tray so that the tray rollers pass over the tray-guide rollers. Bring the tray roller to rest on the tray guide. Tilt the tray upward. While holding the tray up, push it towards the rear. Stop when the tab on the tray aligns with the opening in the tray guide. Lower the tray until it rests on the tray guide roller. Push the tray in all the way. The tray retaining clip will fall into the locking position.

## *Relocating A Tray*

Remove the tray from the merchandiser. Remove the screw that secures the left tray-guide to the front guide-mounting channel. Refer to the figure below.

**Tray Guide**

**Receptacle Block**

Tap up on the tray guide and unseat the guide rail tabs from the channel slots. Pull the guide rail away from the channels. Move the tray guide to the desired position.

Insert the guide rail tabs into the channel slots. Tap down on the guide rail to seat the tabs in the channel slots. Replace the screw that secures the guide rail to the front guide mounting channel. Repeat this procedure for the right guide rail.

Disconnect the harness from the receptacle block. Press the blade of a slotted-head screw driver between one of the receptacle block locking tabs and the receptacle mounting channel. This will unseat the locking tab. Pull the receptacle block away from the channel and move to the desired position. Push the tabs of the receptacle block into the slots in the channel. Reconnect the harness to the receptacle block and return the tray to the merchandiser.

# GCF-2/GSC-8 Operation and Service Manual

## *Product Spacer (Option)*

*Installing* - Insert the mounting pins of the product spacer into the column divider

*Adjusting* - With tray loaded, rotate the product spacer to keep the product upright.

*Removing* - Pull the mounting pins of the product spacer from the column divider.

## *Loading A Tray With Products*

### *(In General)*

Place tray in the loading position. Begin loading products at the front of the tray and work towards the back. Position the product so the package rests on the tray. Be careful not to force a product into a spiral. If the fit is too tight or too loose, change the spiral size. Be sure there are no empty positions between products in each spirals.

### *(Special Considerations)*

- |                 |   |   |
|-----------------|---|---|
| Bagged Products | - | position package upright, then push tops slightly towards rear of tray                  |
| Thin Packages   | - | position packages upright   |
| KitKat          | - | the two right most columns of a candy tray are designed to accept the KitKat candy bar. |

**WARNING**  
Model GSC-8 does not have a health control circuit. It is not approved for the vending of perishable food items.

**CORRECT LOADING OF  
SNACKS**

**CORRECT LOADING OF  
CANDY**

# GCF-2/GSC-8 Operation and Service Manual

## *Preparing the merchandiser for vending "Lunch Bucket"*

Because of the weight and shape of the package, Glasco recommends that this product be vended only from the bottom tray. To vend this product, two adjacent positions must be coupled together. The left spiral coupler should be installed one position counter-clockwise from the vertical position. The right spiral coupler should be installed one position clockwise from the vertical position.

ONE POSITION COUNTER-  
CLOCKWISE  
FROM VERTICAL

RIGHT SPIRAL  
COUPLER

ONE POSITION  
CLOCKWISE  
FROM VERTICAL

LEFT SPIRAL  
COUPLER

**AS VIEWED FROM THE FRONT OF THE TRAY**

Replace the current spirals with six-count spirals. A pad can be installed in the bottom of the delivery pan to quiet and cushion the delivery. The figure below shows the correct loading of the "Lunch Bucket."

LUNCH BUCKET PRODUCT

## *Positioning The Tray For Vending*

Lift the tray until it is parallel to the floor. Push the tray towards the back of the cabinet. Mate the connector on the back of the tray with the receptacle block. Lock the retaining clips on the sides of the tray into position.

# GCF-2/GSC-8 Operation and Service Manual

## Price Labels

Price labels are printed on coiled-up rolls. You will find these in the plastic bag that contained this manual. There are two types of price rolls: Dollar rolls (1 to 12 in increments of 1) and Cents rolls (00 to 95 in increments of 05)

## Installation

There are three pairs of slots in the front of the tray. Insert the dollar roll in the left-most pair of slots if the price is \$1.00 or more. Insert the cents roll in the center pair of slots. The low-number end of the roll goes

in the top slot and the high-number end of the roll goes in the bottom slot.

## Adjustment

You can set selection prices within the following range:

Minimum Price	\$ .00
Maximum Price	\$12.95
Increment	\$ .05

Use your thumb to move each price roll up or down as needed to set the desired price.

# GCF-2/GSC-8 Operation and Service Manual

## *Selection ID labels*

Selection ID numbers are printed on clear plastic labels. You will find these in the plastic bag that contained this manual.

## *Installation*

The price label should be installed first. Press the two long edges of the label together. Snap the label into position on the front of the tray. The following table illustrates which label goes with which selection.

### **MOTOR POSITION**

**TOP  
TRAY**

TRAY A	A0	A1	A2	A3	A4	A5	A6

# GCF-2/GSC-8 Operation and Service Manual

## PROGRAMMING

The diagram on these pages is a map of the programming functions in your merchandiser. These functions will be described in greater detail, but this will help you get around once you are familiar with how programming works. The symbols **H**, **\***, and **#** represent special keys that move you around inside the programming modes, and from one mode to another. As you can see on the diagram, these symbols show up in the pathways in and around the modes.

# GCF-2/GSC-8 Operation and Service Manual

## THE KEYPAD

During vending, customers use the keypad to make selections. When you pull the door switch to the ON position, the keypad becomes your programming input device. For reference, we will show the keypad on all the pages.

## DATA

View four types of data:

**TOT\$** = Total Machine Sales

**TOT** = Total Machine Vends

**FRV\$** = Total Free Vend "Sales"

**FRV** = Total Free Vends

This data is nonresettable.

### NOTE

At any time you can press **H** once to return to the **DATA** display. Press **H** again to return to the standby message.

1. Pull out the door switch button to the ON position.
2. Press # until the display shows **DATA**.
3. Press \*. The display shows **TOT\$ .XX**. This is the dollar and cents amount of machine sales.
4. Press #. The display shows **TOT XX**. This is the total count of all vends.
5. Press \*. The display shows **FRV\$ .XX**. This is the dollar and cents amount of free vend "sales".
6. Press #. The display shows **FRV XX**. This is the total count of free vends.
7. Press # to return to step 3, or **H** to exit.

# GCF-2/GSC-8 Operation and Service Manual

## PAY OUT

Pay out coins:

1. Pull out the door switch button to the ON position.
2. Press # until the display shows **N.D.Q. = 0.1.2**. This is telling you that pressing 0 pays out Nickels, pressing 1 pays out Dimes, and pressing 2 pays out Quarters.
3. Press the appropriate key once to pay out one coin.
4. Press and hold the appropriate key to pay out coins continuously.
5. Press H to return to the standby message.

## PRICE

Set prices for all the selections in your merchandiser:

### NOTE

At any time you can press H once to return to the **PRICE** display. Press H again to return to the standby message.

### METHOD A:

1. Pull out the door switch button to the ON position.
2. Press # until the display shows **PRICE**.
3. Press \*, and the display shows **RD PR XX**. "XX" is the price for the A0 selection.
4. Press # to step to the next selection.
5. Enter a new price with the number keys.
6. Price another selection or press H to exit.

### METHOD B - Selections A through F:

1. Pull out the door switch button to the ON position.
2. Press # until the display shows **PRICE**.
3. Enter the letter/number of the selection you want to price.
4. Price another selection by repeating step 3, or press H to exit.

### METHOD B - Selection H (GSC-8 only)

1. Pull out the door switch button to the ON position.
2. Press # until the display shows **PRICE**.
3. Press \*.
4. Enter "G9", then press # to get to the first "H" selection.
5. Enter the price for the first "H" selection.
6. Press # to scroll through the "H" selections, or press H to exit.

# GCF-2/GSC-8 Operation and Service Manual

## FAULTS

Display all the active faults on your merchandiser:

### NOTE

At any time you can press **H** once to return to the **FAULTS** display. Press **H** again to return to the standby message.

1. Pull out the door switch button to the ON position. If there is a fault on your machine, the display will immediately show the list of errors, one after another. Afterwards, the display shows **FAULTS**. Press **\*** to see the fault list again.
2. Press **\*** to see the list of faults (in a no-fault condition, the **FAULTS** display remains):

<b>TEMP FAULT</b>	An error exists in the food module refrigeration section
<b>CPL ERROR</b> <sup>1</sup>	An error with food module spiral coupling
<b>TC ERROR</b>	An error with the Tray/Column
<b>FOOD DOOR</b>	Food door has failed
<b>HEALTH CTL</b>	The health control has been set
<b>SERIAL VAL</b>	An error in the bill validator (serial only)

*When the first item repeats, you have seen all the faults.*

<sup>1</sup> Couple errors can be cleared by following the procedure outlined in the SETUP mode.

# GCF-2/GSC-8 Operation and Service Manual

## SERVICE

View machine status and test certain functions:

### NOTE

At any time you can press **H** once to return to the **SERVICE** display. Press **H** again to return to the standby message.

1. Pull out the door switch button to the ON position.
2. Press **#** until the display shows **SERVICE**.
3. Press **\***. The display shows the software version number.
4. Each time you press **#** the display shows a different test or indication as listed in the table below.

### NOTE

Some of these tests are applicable only to certain models.

APPLICABLE TO MODEL:		DISPLAY	DEFINITION	TESTS YOU CAN PERFORM
GCF-2	GSC-8			
		VER XXXX	Software version number.	None
		F XXX	Temperature display.	None
		DISPL TEST	Display test.	Press J to briefly light up all segments in the display.
		MONEY DD	Tests if the coin mech and bill validator are showing proper credit.	Insert coins and bills into the merchandiser. The amount you inserted is displayed.
		FOOD DOOR	Allows you to test the operation of the food door.	Press J to test the food door.
		DOOR LOCK	Allows you to test the delivery door lock solenoid.	Press J to test the delivery door lock solenoid.
		MT CAN ON/OFF	Allows the last can in the can unit to be vended.	Enter the selection number to vend the can.

9. Press **#** to return to step 3, or **H** to exit.

# GCF-2/GSC-8 Operation and Service Manual

## SETUP

Configure various machine functions:

### NOTE

At any time you can press **H** once to return to the **SETUP** display. Press **H** again to return to the standby message.

1. Pull out the door switch button to the ON position.
2. Press **#** until the display shows **SETUP**.
3. Press **\***. The display shows either **FREE ON** or **FREE OFF**. When **FREE ON** is displayed, all selections are free. Press **J** to switch between **ON** and **OFF**.
4. Press **#**. The display shows either **DUMB MECH** or **EXEC MECH**. Press **J** to switch between **DUMB MECH** and **EXEC MECH**. NOTE: **DUMB MECH** MUST be selected if you are using a MARS TRC-6000 or COINCO 9300 coin mech.

### NOTE

If you selected **EXEC MECH**, skip to step 8. Otherwise, continue with step 5.

### NOTE

Some steps do not apply to all models covered in this manual.

5. Press **#**. The display shows either **SERIAL VAL** or **PULSE \$1**. Press **J** to switch between **SERIAL** and **PULSE** bill validators.
6. Press **#**. The display shows either **CHANGE ON** or **CHANGE OFF**. When **CHANGE ON** is displayed, a customer may receive change for a bill without making a vend. Press **J** to switch between **ON** and **OFF**.
7. Press **#**. The display shows either **MULTI ON** or **MULTI OFF**. When **MULTI ON** is displayed, a customer may purchase more than one item with a declining balance. Press **J** to switch between **ON** and **OFF**.
8. Press **#**. The display shows either **ENGLISH**, **FRENCH** or **SPANISH**. Press **J** to switch between English, French and Spanish displays.
9. **GCF-2 ONLY:** Press **#**. The display shows **SET COUPLE**. This screen lets you couple and uncouple spirals.
  - a. Press **\***. The display shows **CPLX 02468**. "X" is replaced by **D**, **E**, or **F**. Those are the only three trays which can have coupling. "02468" is one possible display. See the table on the next page for a full explanation of coupling.
  - b. **IF YOU HAVE DIFFICULTY:** You can clear couple errors as follows:  
At the display **CPLX 02468**, press **J**. This will clear any coupling errors.
10. Press **#**. The display shows **"CNFIG XX"**. Set **CNFIG XX** as indicated in the table below:

	GCF-2	GSC-8
WITHOUT GUM & MINT	03	01
WITH GUM & MINT	13	11

# GCF-2/GSC-8 Operation and Service Manual

ADJACENT MOTORS:			
Enter the column ID for the left-most column of the pair to toggle between COUPLE and UNCOUPLE.	When this is displayed:	This pair is coupled:	The left-most column ID is shown for a COUPLED pair.
	0	0 and 1	
	2	2 and 3	
	4	4 and 5	
NON-ADJACENT MOTORS:			
DO THIS FIRST ...	When this is displayed:	This pair is coupled:	The left column of a COUPLED pair must have an even column ID.
Disconnect the tray harness from motors between motors to be COUPLED.  - OR -  Reconnect the tray harness to the motors between motors to be UNCOUPLED.	0.3	0 and 3	The right column of a COUPLED pair must have an odd column ID.
	0.5	0 and 5	
	2.5	2 and 5	
THEN ...			<b>IMPORTANT</b> It may be difficult or impossible to successfully retrieve a long product after it has been dispensed.
Enter the column ID for the left-most column of the pair to toggle between COUPLE and UNCOUPLE.			
FINAL NOTE: If this character is displayed:			The right-most column selection is missing. (Possible disconnected motor)

11. **GSC-8 ONLY:** Press #. The display shows C----- U. "C" is Cold, and "W" is Warm. The more dashes between W and C, the warmer the refrigeration module temperature. To make the temperature warmer, keep pressing \*. The dashes fill in the display from left to right. When the display is full of dashes, the next time you press \*, they all disappear, which represents the coldest temperature.
12. Press # to return to step 3, or H to exit.

FIGURE- INDEX NUMBER	DESCRIPTION	PART NO.	QTY.
1-	Can and Refrigeration Module - 8 Selection	-----	1
1-1	Can Module - 8 Selection (See Figure 3 for Breakdown)	4747000	1
	(Screw #8-18 x 3/8, Hex W/Hd)	4721035	2
1-2	Refrigeration Module Assembly (See Figure 2 for Breakdown)	4744099	1
1-3	Retainer - Door	4744042	1
	(Screw #8-18 x 3/8, Hex W/Hd)	4721035	3
1-4	Door - Refrigeration Module	4744027	1
1-5	Duct Assembly - Air Distribution	4744024	1
	(Screw #8-18 x 3/8, Hex W/Hd)	4721035	6
1-6	Gasket - Duct Distribution	4744028	1
1-7	Harness Assembly - Power to Can Module	4751198	1
1-8	Harness Assembly - Channel to Can Module	4741205	1
1-9	Cable Clip - Refreshment Center 2	4741018	1
1-10	Cover - Compressor	4741213	1
	(Screw #8-18 x 5/8, Hex W/Hd)	4727144	4
	Label - Warning(Used with Index 10)	6231189	1
	<b>THE FOLLOWING IS AVAILABLE AS AN ASSEMBLY:</b>		
	Duct and Gasket Assembly(Includes index 5 and 6)	4744023	1

FIGURE- INDEX NUMBER	DESCRIPTION	PART NO.	QTY.
2-	Refrigeration Module Assembly (See Figure 27, Index 27-2 for Next Higher Assembly)	4744099	Ref
2-1	Shroud - Evaporator Fan	4744045	1
	(Screw #8-18 x 3/8 LGM)	4721035	7
2-2	Fan - Evaporator	4724124	1
	(Screw #8-32 x 3/8 RHS)	9900019	4
	(Nut #8-32 W/LW)	9900081	4
2-3	Gasket - Shroud	4744069	4
2-4	Shroud - Top	4744020	1
	(Screw #8-18 x 3/8 LGM)	4721035	3
2-5	PCB Assembly - Temperature Sensor	9989548	1
	(Spacer - Chassis to PCB - 1/4)	9989430	4
2-6	Plate - Temperature Sensor	4744030	1
	(Screw #8-18 x 3/8 LGM)	4721035	1
2-7	Clip - Wire Harness	1452139	1
	(Screw #8-18 x 3/8 LGM)	4721035	1
2-8	Drain - Water Bath	3128063	1
2-9	Gasket - Refrigeration Module	4744017	1
2-10	Housing - Refrigeration Module	4744002	1
2-11	Retainer - Harness	4732024	1
	(Screw #8-18 x 3/8 LGM)	4721035	1
2-12	Drain - Condensate	4301034	1
2-13	PCB Assembly - Cold Can Module	4744562	1
	(Screw #8-18 x 5/8 Hex Hd)	4727144	3
	(Screw #8-18 x 2.00, Tapping HHS)	4744056	1
	(Speed Nut - Ballast)	2221032	1
2-14	Insulator - PCB	4744032	1
2-15	Evaporator Tube Assembly	4744005	1
2-16	Condensor	4744109	1
	(Screw #8-18 x 3/8 LGM)	4721035	4
2-17	Compressor - 1/6 HP	4724079	1
	(Nut #1/4-20)	1211105	4
	(Washer - Steel - 3/4 OD x 1/4 ID)	1140351	4
	(Grommet 11/16 Long)	4724066	4
	(Sleeve - 23/32 Long)	4724070	4
2-18	Strap - Bale - A.E.T.	3144055	1
2-19	Cover - Terminal - DS - A.E.T.	3144057	1

2-20	Spring - Overload - A.E.T.	3144052	1
2-21	Relay	4724065	1
2-22	Overload - 143FG	4724067	1
2-23	Shroud - Condensor Fan	3608146	1
	(Clip - Speed - Dart Style)	4043082	4
2-24	Bracket - Condensor Motor	4744009	1
	(Nut #1/4-20 KEPS)	1211105	2
2-25	Motor - Condensor Fan	4744112	1
	(Screw #8-32 x 3/8 Hex W/Hd)	3157060	4
2-26	Blade - Condensor Fan FV-70	3608149	1
	(Nut - Speed #1/4-20)	4043122	1
2-27	Silencer - Fan - Morril - S-584(Included with Index 25)	4043121	1
2-28	Pan - Condensate	4744022	1
2-29	Base and Stud Assembly - Condensing	4744046	1
	(Bolt #1/4-20 x 1-1/2 Hex Hd)	3608119	2
	(Washer - Steel - 3/4 OD x .264 ID)	1140351	4
	(Nut - Self-locking, #1/4-20)	9900184	2
2-30	Harness - Compressor (Not Shown)	4744564	1
2-31	Wiretie (Not Shown)	2204513	4
2-32	Label - Caution - Refrigeration	4304001	1
2-33	Label - Refrigerant	4304192	1
<b>THE FOLLOWING ARE AVAILABLE AS ASSEMBLIES:</b>			
	Shroud and Fan Assembly - Evaporator (Consists of Index 2-1 thru Index 2- 4)	4744010	1
	Temperature Sensor Assembly - Cover and (Consists of Index 2-5 and Index 2-6)	4744029	1
	Housing and Refrigeration Module Assembly (Consists of Index 2-8 thru Index 2-12)	4744001	1
	Refrigeration Module Assembly (Consists of Index 2-15 thru Index 2-31)	4744091	1
	Compressor Package (Consists of Index 2-17 thru Index 2-22)	4744091	1
