**LCM Glassfront
Merchandiser**

The LCM4: The Snack-Can merchandiser that maximizes product capacity.

LCM4

Take your capacity requirements to the max without taking your costs along with it. Our new LCM4 Snack-Can Merchandiser does the work of two merchandisers while keeping machine extras to a minimum. It's also designed with the same quality workmanship you've come to expect from Automatic Products international, Ltd. All this gives you unparalleled capacity and outstanding reliability at an economical price. The LCM4 has the following standard features:

180 can capacity and ten different selections give you the largest can capacity and drink selection of any snack-can merchandiser in the industry.

Two 5-wide snack shelves and a **10-wide candy shelf** form the most popular shelving configuration available in a snack-can merchandiser.

Convertible shelving allows for the most advantageous combination of snacks and candies.

Attractive styling options let you choose the look that fits your needs and appeals to your customers, including the popular Apollo styling (shown on front).

Electronic counters provide you with total vends and total cash sales for easy tracking.

The LCM4 also offers the following options:

Dual snack spirals allow maximum vending flexibility.

Ventilation fan to guarantee product freshness.

Half-cycle motors enable you to vend high volume gum and mint items out of a candy selection spiral.

24 volt changer and bill validator ensures long-lasting, dependable change and bill validation functions.
