

Hot Beverage vender from Rowe

model 465FD Freeze Dry

Manufactured by

RMI

Refreshment Machinery Inc.

WHAT ARE THE ADVANTAGES?

It has all the features and advantages of heavy-duty coffee vending equipment: full house post-selectivity including coffee 9 ways, tea, whipped hot chocolate, and soup; automatic cup dispensing; capability for choice of coin mechs; fast and easy servicing; dependable operation; rugged construction.

Yet it differs from larger capacity equipment in size and price.

The Model 465 FD occupies slightly more than a two-foot square (4½ square feet) and stands only 5'4" high (including 6" legs to conform to Health Department Code.)

And because of its size, the price is considerably less.

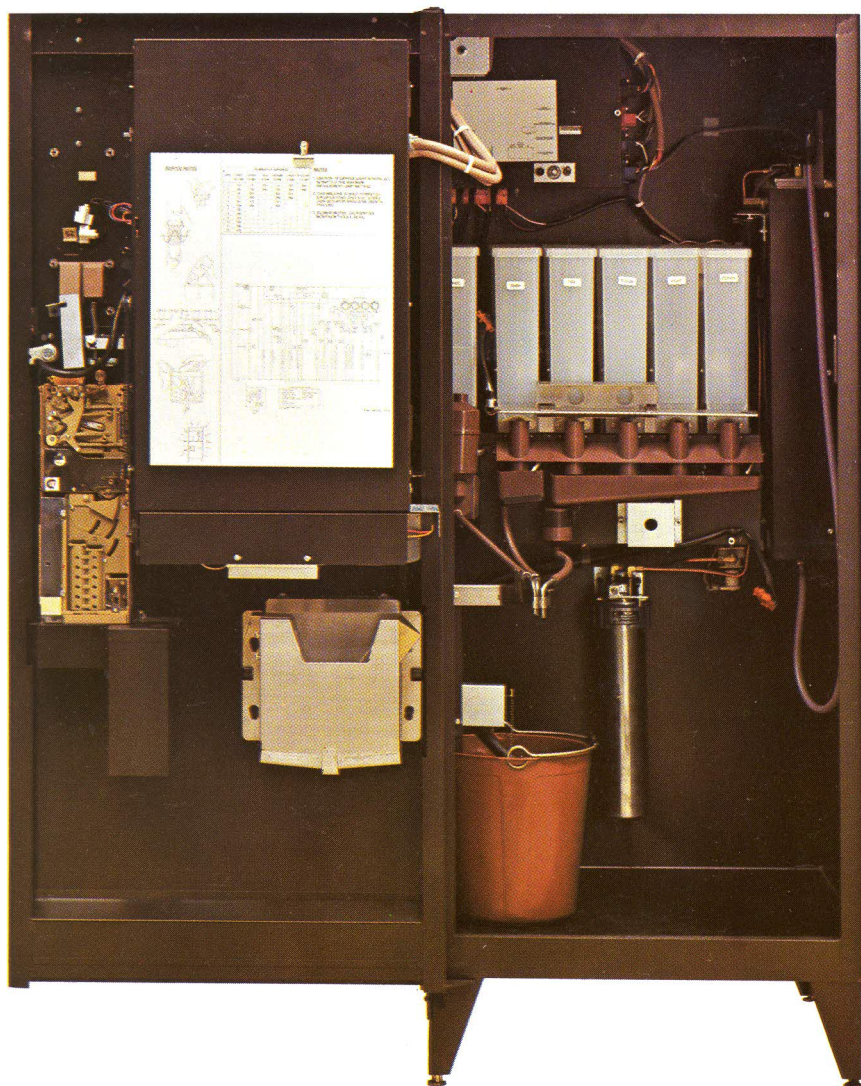

A full-fledged hot beverage vendor for the lower volume location.

Or for the Co-operative vending Service (CVS) market.

It opens up new opportunities.

WHY AN IN-BETWEEN MACHINE?

Simply because there are countless places where demand is not sufficient to justify full service with high capacity equipment, but need the convenience of coin-operated equipment that is completely automatic.

5 Selection — Coffee and chocolate
 6 Selection — Coffee, chocolate and soup
 9 Selection — Coffee, chocolate and tea
 10 Selection — Coffee, chocolate, tea and soup
 Extra crema and sugar selection included

HOW CAN THE MODEL 465 FD BE UTILIZED BEST?

For lower volume locations where normal full service might be unprofitable: A "cooperative vending service" approach with the location filling the unit from on-hand inventories purchased from the operator, the Model 465 FD produces customer satisfaction and operator profitability.

FEATURES

Water System gravity fed, open to atmosphere, simple, safe, dependable.
 Commodity System in-line, see-through graduated canisters; easily removable and cleanable troughs; open rack; rinse hose. Easy to fill and maintain good housekeeping.
 Cup System in-line, out of the way, door mounted dispenser for easy servicing.
 Electrical System rotary selection switch with program timer, encased switches, plug-in relay for dependability, safety, and easy maintenance.
