BULLETIN NO. 380

DATE: 02-01

**RE: All GLASSFRONT
MERCHANTISERS**

SUBJECT: Molex Shelf Connectors

Effective 02/12/01 all machines now use Molex shelf connectors. We have changed the serial number plate to indicate the letter "B" after the model to differentiate between the machines with the Molex cabinet and shelf harnesses. An example of a the new serial numbers is shown below:

123B 01 043 001

Model: 123B
Year: 01
Day: 043
No.: 001

LCM3B 01 043 002

Model: LCM3B
Year: 01
Day: 043
No.: 002

This new, Molex brand, shelf connector is made using advanced assembly techniques to improve operational reliability. This has proved to be the case since its introduction on the 320 Series. Our extensive in-house testing, coupled with field results and customer feedback, indicate that the Molex shelf connection system performs equally well in an ambient cabinet temperature environment.

The Harnesses affected by this change are the cabinet back harness, shelf harnesses, gum and mint harness and vend motor rack harnesses. The charts below include all the part numbers for the harnesses that have changed. All part numbers for the harnesses below include the mounting brackets, except for the can motor rack harness that does require a bracket. Please note these part numbers for future use.

Harnesses	Cabinet Back	Snack Shelf	Convertible/Candy Shelf	Gum & Mint
121B	16600127	660435-9	660435-10	16600177 (US)
122B	16600127	660435-9	660435-10	16600178 (US)
123B	16600127	660435-7	660435-8	16600179 (US)
LCM1B	16600084-02	660435-9	660435-10	16600177 (US)
LCM2B	16600084-02	660435-9	660435-10	16600178 (US)
LCM3B	16600084-02	660435-7	660435-8	16600179 (US)
