| 1 - 900,301,84x.x1 | #8-18x½ Phil Pan |

Coin Cup Filler Plate
432,010,84x.x3

FOR INSTALLATION SEE PAGE 2.

COIN CUP FILLER PLATE INSTALLATION:

1. Place the coin cup filler plate in the plastic coin cup as shown in figure 1.
2. Insure that the top flange of the coin cup filler plate goes over the top edge of the coin cup.
3. Align the hole in the bottom of the coin cup filler plate with the hole in the bottom of the coin cup.
4. Install the Type "A" Sheet Metal Screw to secure. Ensure that the filler plate is flush with the bottom of the coin cup.
5. **Important:** If water collects in the coin cup after the kit is installed, drill a $\frac{3}{16}$ " drain hole in the bottom of the coin cup in front of the filler plate.
