

Technical Bulletin

Bulletin Number: 489 Revision Number: R-01

Release Date: August 10, 1994 Revision Date: July 23, 1998

SUBJECT: VENDOR DEFENDOR EXTENSION

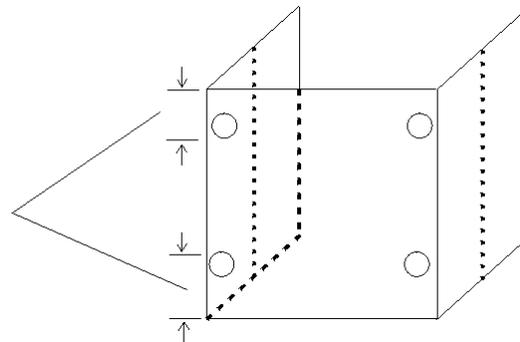

MODELS AFFECTED: All Dixie-Narco venders with the Vendor Defendor installed.

SERIAL BREAKS: Dixie-Narco venders with Vendor Defendor factory installed built prior to 0001-6188CS.

REASON: To provide an extension to the Vendor Defendor to reduce the distance between the Vendor Defendor and the top of the coin mech separator.

ORDER: 491,010,65x.x3 Vender Defendor Extension

Note the length difference from the hole to the bottom for adjustment purposes.

491,010,65x.x3

TO INSTALL:

1. Locate the bottom two snaps (see "A" on figure 1) on the Vendor Defender.
2. Determine the distance between the bottom edge of the Vendor Defender chute and the coin mech funnel. Place the chute extension in position so the chute is extended the proper length.
3. Place the extension on the Vendor Defender so the top two holes ("B", Figure 2) fit over the bottom two snaps located in step 1.
4. Carefully bend the extension at the holes provided until it is secured to the Vendor Defender. See Figure 3.
5. Pass coins through the coin chute to ensure proper operation.
